Subject: CES Vacuum Box Transfers
Date: Friday, October 10, 2014 2:42:46 PM

Hello

We anticipate beginning transfers of the phenolic boxes on Tuesday, October 14. As you know, the materials in these boxes are extremely aromatic. Exhaust air will be going through a water and a carbon scrubber.

Hopefully, we will not have odor issues but we should assume we will. We will be monitoring the exhaust for VOCs.

If you have any questions, please let me know.

The EPA rep on site for next week will be EPA OSC Adam Adams as I am on Phone Duty.

Thanks

Gary Moore
